Fertiliser for Life

ECO-PASTURE AUTUMN

Supplying balanced nutrition to soil, pasture and animals

KEY BENEFITS:

- Greater plant density
- Increased pasture palatability
- Rich source of trace elements essential for animal health – including Copper, Selenium and Cobalt
- Suited to high and low pH soils, soils with sodium and aluminium constraints
- Low leaching and sustained release

Eco-Pasture Autumn stimulates healthy new root development by combining phosphorus and Eco-Advance® beneficial microbes to rapidly increase root biomass to provide a solid foundation for improving plant density, reducing opportunistic weed invasion, enhancing drought tolerance, and improving the overall resilience of pastures.

Eco-Pasture Autumn also includes Nitrogen to facilitate timely growth, and Potassium along with natural, mineral-based elements - including Calcium, Silicon and trace elements to increase carbohydrate production and mineral availability, leading to greater pasture palatability and improved plant/animal health and nutrition.

TYPICAL ANALYSIS

Eco-Pasture Autumn (8-6-5-12) w/w %

Nitrogen (N)	
N as ammonium	7.9%
N as mineral complex	0.1%
N Total	8.0%
Phosphorus (P)	
P as water soluble	1.6%
P as citrate soluble	3.0%
P as citrate insoluble	1.2%
P Total	5.8%
Potassium (K)	
K as sulphate	4.5%
K as mineral complex	0.5%
K Total	5.0%
Sulphur (S)	
S as sulphate	10.9%
S as mineral complex	0.9%
S Total	11.8%

	w/w%
Calcium (Ca) as phosphate & complex	11.1%
Magnesium (Mg)	
Mg as sulphate	0.1%
Mg as mineral complex	0.3%
Mg Total	0.4%
Silicon (Si) as silicate complex	10.9%
Carbon (C) as complex	0.1%
Iron (Fe) as mineral complex	1.0%
Zinc (Zn) as mineral complex	0.04%
Copper (Cu) as mineral complex	0.02%
Boron (B) as mineral complex	0.002%
Manganese (Mn) as mineral complex	0.09%
Cobalt (Co) as mineral complex	0.005%
Selenium (Se) as mineral complex	0.0006%
Molybdenum (Mo) as mineral complex	0.0006%

CROP/PLANT TYPE	RATE	TIMING
Pasture Non-Irrigated	75-150kg/ha	As required
Pasture Irrigated	150-250kg/ha	As required

AVAILABLE IN 25KG & 500KG/1 TONNE BULKA BAGS | FOR ALTERNATIVE USES OR APPLICATIONS PLEASE CONTACT YOUR ECO GROWTH® NUTRITIONAL EXPERT.

Eco Growth is Australia's leading manufacturer of biologically activated fertilisers

Feed the soil
to feed the plant

Nutrition is not just about analysis, but nutrient availability and Eco Advance® makes the connection between fertiliser, soil and plant in a powerful symbiotic relationship.

Eco Advance® premium biology is a proprietary blend of beneficial biology and bio-stimulants that have been developed by Eco Growth over the past 20 years. Including beneficial microbe strains such as Fungi and Bacillus (ie: *B.megaterium* and *B.subtilis*). Eco Advance® is a specially formulated blend of targeted microbiology that improves nutrient availability, soil structure, increased resistance and buffering capacity along with many other soil and plant benefits.

COMPLEMENT YOUR GRANULAR PROGRAM WITH OUR PREMIUM LIQUID FERTILISERS

Our chelate complex liquids are designed to penetrate the leaf quickly and effectively, but not deposit harmful chlorides or damaging salts, which can cause plant damage and encourage fungal and insect attack.

Eco-Vital®

A Commercial Strength Liquid Seaweed & Fish Fertiliser designed for a fast response.

Rich in natural Nitrogen, Phosphorous, Potassium, Calcium, 15+ Trace / Rare-Earth elements, +natural growth regulators.

Express NPK

A premium, fast acting and complete liquid fertiliser providing highly available N, P & K with a balance of chelated Trace Elements.

Ideal for a wide variety of crops and plants, Express® NPK improves fruit size whilst maintaining colour & quality.

Eco-Humate

Liquid Humic Acid (alkali pH), lifts soil Cation Exchange Capacity (CEC).

Holds water and boosts nutrient availability in the soil, by forming a humus complex.

Protects plants from salts and toxins such as Aluminium, whilst boosting beneficial microbe activity.
